INTRODUCTION

Antaira's LMX-0601G-SFP series is a 6-port industrial managed Ethernet switch that is embedded with five gigabit Ethernet ports and one dual rate (100/1000) SFP slot for fiber connection. This series is a fully manageable industrial Ethernet switch pre-loaded with standard Layer 2 network management software, and supports a user friendly web console interface for easy configuration.

The LMX-0601G-SFP series is IP30 rated, DIN-rail mountable, and has two wide operating temperature models for either a standard temperature range (STD: -10°C to 70°C) or an extended temperature range (EOT: -40°C to 75°C). It also provides high EFT and ESD protection for any industrial networking application within factory automation, ITS, power/utility, water wastewater, and any other outdoor or harsh environment.
